**To Whom It May Concern**

**Declaration of Compliance**

**SIEGWERK Products:**

This declaration<sup>1</sup> is valid for, and limited to, all Siegwerk product supplied to M/s DAMATI PAPER CRAFT as per references listed hereafter:

**Unilable, Unipaper and Unicor Water base ink Series**

**Declaration:**

We confirm that our above mentioned products conform to requirements of the heavy metal content regulations viz. CONEG-Regulation January 1, 1994 (USA); EU Directive 94/62/EG, December 20, 1994. We also confirm that the above products are manufactured in accordance with the EuPIA (ex CEPE) Exclusion List available under <http://www.eupia.org/>

We can assure you that, in all the above mentioned Siegwerk products, the potential impurities of substances and elements restricted under RoHS (Europe and China) are by far below levels of concern and/or thresholds applicable to printed constituents of electronic information products as well as of electronic and electrical devices.

In the manufacture of above products supplied by Siegwerk, the substances of very high concern that could become subject to authorization according to article 57 of Regulation (EC) No 1907/2006, or raw materials containing these substances, are not used as intentionally added components.

In the manufacture of all of above products supplied by Siegwerk, substances regulated in Annex XVII of Regulation (EC) No. 1907/2006 (REACH) and its amendments (status as amended by Regulation (EU) No. 474/2014), or raw materials containing these substances, are not used as intentionally added ingredients.

The ink formulae of the said products are considered safe for indirect food contact applications provided that an effective functional barrier to migration exists. If these inks will be utilized in such a manner that migration can occur these inks would then be regulated under FDA 21 CFR parts 174-186. The migration will cause it to be considered an indirect food additive and may reasonably expected to become a component of food, it would then be regulated and would require FDA compliance.

**AUTHORISED SIGNATORY**
